

## Vehicle Exhaust Systems Design Worksheet

Your answers help our engineering team understand your project and provide accurate recommendations. **Once complete, email this form to [engineering@aircontrolproducts.com](mailto:engineering@aircontrolproducts.com).**

### Source Capture

Quantity of Service Bays:	<input type="text"/>
Hose Reel Mounting Height:	<input type="text"/>

<b>Vehicle Classification:</b>	Cars, Light Trucks <input type="checkbox"/>	Medium Trucks Light Buses <input type="checkbox"/>	Large Trucks/Buses Industrial/Agriculture <input type="checkbox"/>
--------------------------------	---	---	---

<b>Vehicle Fuel Type:</b>	Gas <input type="checkbox"/>	Diesel <input type="checkbox"/>
---------------------------	------------------------------	---------------------------------

### Exhaust Fans

Quantity of Fans:	<input type="text"/>
Roof Mounted <input type="checkbox"/>	Reel Mounted <input type="checkbox"/>

### Makeup Air

Cooling <input type="checkbox"/>	Heating <input type="checkbox"/>	Untempered <input type="checkbox"/>
----------------------------------	----------------------------------	-------------------------------------

### Gas Detection

Building Dimensions	<input type="text"/>
---------------------	----------------------

### Mounting

Roof <input type="checkbox"/>	Grade <input type="checkbox"/>	Suspended <input type="checkbox"/>
-------------------------------	--------------------------------	------------------------------------

### Radiant Tube Heaters

Customer Care Area <input type="checkbox"/>	Service Repair Area <input type="checkbox"/>	Other <input type="checkbox"/>
---	--	--------------------------------
